Re*Sonate...

To resonate is to vibrate, to be in alignment, and/or to oscillate. Just like a sonata describes the beauty of classical or highly refined music, the energy of re*sonate conveys being one with a higher vibration. This higher vibration promotes a connection between the crown chakra and the awareness of bringing in wisdom.

Re*sonating with one's higher Self in all situations attunes one to the exquisite gifts of the Universe. Re*sonating with Nature ushers in intuitive and intellectual skills that bode well during the changes, shifts and cycles of life. As we gracefully re*sonate with life's true pleasures that are hidden within the ordinary, we learn how to fully balance life-tide's ebb and flow.

Re*sonance with Source inspires the creative ability of noble (please see the book's first pages~ Psalm 122:7..."May peace be inside your walls and wealth inside your noble houses.") endeavors where original and kinesthetic pursuits are forthcoming.

Re*Sonate with the Cosmic Beings and live from your heart-for in fact, this is where your true and highest Self dwells.
